II. SEWER RATE..... 2

III. ANNUAL CHARGE..... 2

APPENDIX A: PRELIMINARY SEWER CHARGE ROLL..... 3

I. INTRODUCTION

The City of Bell (“City”), pursuant to the provisions of Article 4, Chapter 6, Part 3, Division 5 of the Health and Safety Code of the State of California (the “Code”), established its Sanitary Sewer Maintenance District (“District”) to fund the ongoing operation and maintenance of the sewer collection and conveyance facilities within the City. Pursuant to the California Health and Safety Code, the City is required to maintain the sewer facilities in a safe and sanitary condition. The City is also required to conform to a variety of regulations of the State Water Control Board for the maintenance of the system and prevention and cleanup of sanitary sewer overflows. The City originally established the Sanitary Sewer Maintenance District to levy an assessment on all properties within the District, citywide, who receive sewer services, to offset the costs incurred for the maintenance and safe operations of the sewer system. Prior to the City establishing the District, charges were levied and collected by Los Angeles County as part of its Consolidated Sewer Maintenance District, and the County was responsible for maintaining and operating the system.

For Fiscal Year 2025/2026 the City transitioned the charge to a property-related user fee/charge (“Sewer Charge”), also referred to as a sewer rate, as opposed to an assessment, and levied the Sewer Charge pursuant to Section 5473 of the Code. The Sewer Charge will still be included as an annual charge on the County secured property tax bill. Property-based fees and charges are required to comply with the California Constitution Article XIII D, also known as Proposition 218. In summary, this requires fees that are incident to property ownership or tenancy, such as sewer rates, to be based on and not exceed the reasonable proportional cost of providing the service, and revenues received from these charges cannot be used for any other purpose than that for which they are imposed. Proposition 218 also specifies procedural requirements for implementing sewer rates that are different from the requirements for assessments; primarily that new or increased property-based fees or charges may be imposed if there is no written majority protest submitted by more than a majority of property owners or customers subject to the charge..

On June 25, 2025, the City, in full compliance with Proposition 218, adopted Resolution 2025-31, approving the sewer rate study, adopting the proposed rates for Fiscal Years 2025/2026 through 2029/3030, and approving the sewer fee to be placed on the tax roll.

II. SEWER RATE

Description	FY 2026/2027 Rate
Charge Per Sewage Unit	\$127.80

Note: The rate structure consists of an annual rate per sewage unit that applies to each parcel based on the number of sewage units associated with that parcel's land use type in accordance with Los Angeles County's code of ordinances 20.40.100.

III. ANNUAL CHARGE

The Preliminary Sewer Charge for Fiscal Year 2026/2027 is summarized in the table below.

Number of Parcels Charged	Total Charge
4,035	\$1,277,169.30

APPENDIX A: PRELIMINARY SEWER CHARGE ROLL

Due to size limitations, the Fiscal Year 2026/2027 Preliminary Sewer Charge Roll is provided under separate cover and is on file with the City Clerk.
