SOUTHERN CALIFORNIA GAS COMPANY (SOCALGAS®) NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 2 ACTIVITIES APPLICATION NO. A.24-12-011

WHY AM I RECEIVING THIS NOTICE?

On December 20, 2024, Southern California Gas Company (SoCalGas), filed the Angeles Link Phase 2 application (A.24-12-011) with the California Public Utilities Commission (CPUC) to increase revenue to recover forecasted costs associated with Phase 2 of Angeles Link. SoCalGas is requesting \$89.5 million, \$118.3 million, and \$65.5 million for the years 2026, 2027, and 2028, respectively. The total forecasted costs are \$273.3 million.

If the CPUC approves this application, SoCalGas will recover forecasted costs in gas rates over a 3-year period beginning after approval of the application. This will impact your monthly bill.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. In Phase 2, SoCalGas will identify a preferred route, conduct refined design, engineering, and environmental studies, and continue stakeholder engagement activities for the Angeles Link project. The final objective of the proposed project is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). Developing a clean, renewable hydrogen transportation system is crucial for establishing a hydrogen economy in California and helping the state achieve its environmental goals. The application covers costs associated with planning and refining the project.

HOW COULD THIS AFFECT MY MONTHLY GAS BILL?

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2026, 2027 and 2028 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.
